

AI NORTH STAR DISCOVERY WORKSHOP

Complete clarity. Before you commit.

A complimentary diagnostic that gives your leadership team a shared direction for AI - mapped to your actual business priorities, your existing Oracle environment, and the decisions you need to make next.

3

ONE-HOUR SESSIONS
NO COST - NO OBLIGATION

HOW IT WORKS

01

Current State

AI PILOT OWNERS & INITIATIVE LEADS

Map what AI is actually in use. Who owns it, what's working, and whether any outcome is being measured. Ground-level truth, not assumptions.

02

Direction & Alignment

CROSS-FUNCTIONAL SENIOR LEADERSHIP

Surface strategic priorities, functional alignment, and leadership-level constraints. The gap between Sessions 01 and 02 is where the most valuable insights live.

03

Findings & Recommendation

SENIOR LEADERSHIP + IT / DIGITAL LEADS

Four deliverables presented. A complete picture and a clear recommended path forward. No commitment required - the deliverables are yours regardless.

WHAT YOU LEAVE WITH

01

AI Assessment Results

Landscape inventory + readiness read across four dimensions. Specific to your org.

02

16-24 Month Roadmap

Phased: Now - Near - Horizon. Governance and enablement tracks, sequenced.

03

AI Operating System Framework

Governance blueprint: Operating Council design and decision rights.

04

AI Foundations Program Plan

People enablement blueprint with proprietary assessment platform and fluency measurement.

OUR AI PRACTICE

ENTERPRISE & ORACLE AI

AI Governance & Strategy

Decades of Oracle and enterprise transformation expertise, applied directly to AI governance infrastructure. We design the structures that let your organization decide on, approve, and scale AI responsibly - from Operating Council design and decision rights to data readiness and cloud deployment.

PEOPLE & CHANGE

AI Literacy & Enablement

A structured, assessed enablement program that builds measurable AI fluency across your organization. Our proprietary behavioral assessment platform measures what people do with AI - not what they've watched. Pre/post measurement turns training into a provable ROI story.

BEHAVIORAL ASSESSMENT

PRE/POST MEASUREMENT

ROLE-SPECIFIC

ORACLE

CLOUD

DATA

GOVERNANCE

Zero Cost. Zero Risk. Immediate Clarity.
