

# Oracle Fusion Cloud

## Optimization Workshop

*A planning session tailored for Oracle Fusion customers evaluating optimization opportunities.*

### Purpose

To provide organizations with a clear, structured plan based on a current-state Oracle Fusion assessment—culminating in an executive readout with actionable recommendations and a tailored optimization roadmap.

### What You Get:

- **Maturity Assessment**
  - A high level evaluation of how well your Oracle Fusion environment is performing today across key areas such as processes, configuration, reporting, and adoption.
- **High Impact Analysis Scorecard**
  - A scoring tool that ranks optimization opportunities so you know what to do first. Items are scored by business value/ROI, effort, risk, data readiness, and time to impact.
- **Optimization Roadmap**
  - A practical, phased plan that turns findings into an execution sequence—broken into quarters and years.
- **Recommendations and Budgetary Estimate**
  - Actionable recommendations tied to the roadmap, plus a high-level estimate of cost, time, and resourcing needed to execute.

### Time Commitment

- HCM- 1-1.5 hrs
- SCM: 1-1.5 hrs
- Financials: 1 hr
- EPM: 45 mins
- 1 hour readout with executive sponsor
